IMPORTANT ANNOUNCEMENT

The INTERNATIONAL CABLE DIRECTORY COMPANY is ever ready to secure for its clients information of value to users of the wires. In return it respectfully suggests that when our readers correspond with firms or individuals whose names are taken from this Register they will accord us the favor of mentioning the name of the publication. If this plan is generally adopted it will work to the common benefit of all concerned.

Die INTERNATIONAL CABLE DIRECTORY COMPANY ist jederzeit gern bereit, ihren Kunden Auskünfte zu beschaffen, die für Benutzer des Drahtdienstes von Wert sind. Als Gegenleistung erbittet sich die Gesellschaft lediglich die Gefälligkeit von ihren Lesern, wenn sie mit Firmen oder Einzelpersonen, deren Namen der International Cable Register entnommen sind, brieflich verkehren, freundlichst den Namen dieser Veröffentlichung erwähnen zu wollen. Findet dieser Plan allgemeine Aufnahme, so dürfte er für alle Beteiligten gemeinsame Vorteile im Gefolge haben.

La INTERNATIONAL CABLE DIRECTORY COMPANY est toujours prête à fournir à ses clients des informations de valeur pour ceux qui se servent des fils. En échange, nous demandons respectueusement à nos lecteurs que, quand ils correspondront avec des maisons de commerce, ou avec des particuliers, dont les noms seront pris au International Cable Register, ils veuillent bien nous accorder la faveur de citer le titre de cette publication. Si ce plan est généralement adopté, ce sera au bénéfice de tous ceux qui y seront intéressés.

La INTERNATIONAL CABLE DIRECTORY COMPANY está siempre dispuesta á obtener informes para sus clientes, que son útiles para los que usan los alambres. En cambio de lo cual deseamos indicar á aquellos de nuestros lectores que tienen correspondencia con casas de comercio ó con particulares cuyos nombres se han sacado del International Cable Register que consideraremos un obsequio que nombren esta publicación.

Si se adopta este plan en general, quedarán beneficiados todos los interesados.

TELEGRAPHIC ADDRESSES ALPHABETICALLY ARRANGED AND CODE WORDS ALPHABETICALLY ARRANGED TO CORRESPOND.

The four letter code word indicates the name of a firm, the city in which it is located and the street address. When used in a message by itself it signifies "Call On" or "Go to." If used in any other sense, the preceding or succeeding word will denote it. In making up the word, the first two letters are in bold type preceding the alphabetical arrangement of the two letters to the left of the cable address.

For example—Your agent has landed at Melbourne and will go from there to Sydney and Brisbane, but a letter will not reach him before he arrives in the latter city; you wish him to call on Gordon & Gotch, Proprietary, Ltd., 124 and 126 Queen Street, Melbourne, Edwards, Dunlop & Co., Ltd., 123 Clarence Street, Sydney, and you have instructed the London Bank of Australia, Ltd., Martin Place, to pay him £100 when he calls. The body of your message would read

EYJU DOUV HBFO MULLEQUIN

4 words.

Translated—Call on Gordon & Gotch, 124 Queen Street, Melbourne. Call on Edwards, Dunlop & Co., 123 Clarence Street, Sydney, and go to the London Bank of Australia, Martin Place, Sydney for One Hundred Pounds—34 words.

TELEGRAPHISCHE ADRESSEN ALPHABETISCH GEORDNET UND KODE WÖRTER ALPHABETISCH GEORDNET, UM ÜBEREINZUSTIMMEN.

Das vier Buchstaben Kode Wort zeigt den Namen einer Firma, die Stadt, in welcher dieselbe sich befindet, und die Strassen-Adresse an. Wenn in einer Depesche verwandt, bedeutet es: "Besuche" oder "Gehe zu." Wenn in irgend einem anderen Sinne angewandt, wird das vorhergehende oder folgende Wort ihn andeuten. Wenn man ein Wort zusammensetzt, sind die beiden ersten Buchstaben in hervortretendem Druck und gehen dem alphabetischen Arrangement der beiden Buchstaben an der Linken der Kabel Adresse voraus.

Zum Beispiel: Ihr Agent ist in Melbourne gelandet und will von dort nach Sidney und Brisbane gehen, ein Brief würde ihn jedoch, ehe er in der letzteren Stadt ankommt, nicht erreichen; Sie wollen, dass er Gordon & Gotch, Proprietary, Ltd., 124 und 126 Queen Street, Melbourne, Edwards, Dunlop & Co., Ltd., 123 Clarence Street, Sidney besucht und Sie haben die London Bank of Australia, Ltd., Martin Platz instruiert, ihm £100 zu zahlen, wenn er hinkommt. Der Inhalt Ihrer Depesche würde also lauten:

EYJU DOUV HBFO MULLEQUIN

4 Wörter.

Uebersetzt: Besuche Gordon & Gotch, 124 Queen Street, Melbourne, besuche Edwards, Dunlop & Co., 123 Clarence Street, Sydney und gehe zu der London Bank of Australia, Martin Place, Sydney für £100.—31 Wörter.

ADRESSES TELEGRAPHIQUES DRESSEES ALPHABETIQUEMENT ET MOTS DU CODE DRESSES ALPHABETIQUEMENT POUR CORRESPONDRE

Le mot de quatre lettres du Code indique le nom d'une société ou maison de commerce, la ville où elle est située et l'adresse de la rue. Quand on s'en sert dans un message il signifie par lui-même "Passez chez," ou "allez chez." Quand on s'en sert dans un autre sens, le mot précédent ou le suivant le dénote. En établissant le mot, les deux premières lettres sont en gros caractère précédant l'arrangement alphabétique des deux lettres à la gauche de l'adresse du cable.

Par exemple: Votre agent a débarqué à Melbourne et ira de là à Sidney et Brisbane, mais une lettre ne lui parviendra pas avant qu'il arrive à la dernière ville; vous désirez qu'il passe chez Gordon et Gotch "proprietary" Lté, 124 et 126 Queen street, Melbourne, chez Edwards Dunlop et Cie, Lté, 123 Clarence street, Sydney et vous avez donné instruction à la Banque de Londres d'Australie Ltée, Martin Place, de lui payer £100 quand il passera. Le corps de votre message se lira ainsi:

EYJU DOUV HBFO MULLEQUIN

4 mots.

Traduisez: Passez chez Gordon et Gotch, 124 Queen street, Melbourne, passez chez Edwards, Dunlop et Cie, 123 Clarence street, Sydney, et allez à la Banque de Londres d'Australie, Martin Place, Sydney, pour cent livres.—33 mots.

DIRECCIONES TELEGRAFICAS COMPILADAS ALFABETICAMENTE Y PALABRAS DEL CODIGO A LAS CUALES CORRESPONDEN COLOCADAS ALFABETICAMENTE.

La palabra del código de cuatro letras indica el nombre de una casa, la ciudad en que está situada y la calle. Cuando se usa en la composición de un mensaje significa "Visitar á" ó "Ir á." Si se usa en cualquier otro sentido, la palabra precedente ó siguiente lo demostrará. Al hacer la palabra, las dos primeras letras están en tipo grueso precediendo el orden alfabético de las dos letras á la izquierda de la dirección cablegráfica.

Por ejemplo: Su representante ha desembarcado en Melbourne y desea ir de allí á Sydney y á Brisbane, pero no es posible que él reciba una carta antes de llegar á este último punto. Vd. desea que él visite á los Sres. Gordon & Gotch Proprietary Ltd., 124 y 126 Queen Street, Melbourne, Edwards, Dunlop & Co., Ltd., 123 Clarence Street, Sydney, y Vd. ha dado instrucciones al Banco de Londres en Australia, Ltd., Martin Place, para que le entreguen á su representante £100 cuando él los visite. Su mensaje por consiguiente diría como sigue:

EYJU DOUV HBFO MULLEQUIN

4 palabras.

Traducido diría: Visite á Gordon & Gotch, 124 Queen Street. Visite á Edwards, Dunlop & Co., 123 Clarence Street, Sydney y vaya al Banco de Londres en Australia, Martin Place, Sydney, por Cien Libras.—32 palabras.

IMPORTANT ANNOUNCEMENT

The INTERNATIONAL CABLE DIRECTORY COMPANY is ever ready to secure for its clients information of value to users of the wires. In return it respectfully suggests that when our readers correspond with firms or individuals whose names are taken from this Register they will accord us the favor of mentioning the name of the publication. If this plan is generally adopted it will work to the common benefit of all concerned.

Die INTERNATIONAL CABLE DIRECTORY COMPANY ist jederzeit gern bereit, ihren Kunden Auskünfte zu beschaffen, die für Benutzer des Drahtdienstes von Wert sind. Als Gegenleistung erbittet sich die Gesellschaft lediglich die Gefälligkeit von ihren Lesern, wenn sie mit Firmen oder Einzelpersonen, deren Namen der International Cable Register entnommen sind, brieflich verkehren, freundlichst den Namen dieser Veröffentlichung erwähnen zu wollen. Findet dieser Plan allgemeine Aufnahme, so dürfte er für alle Beteiligten gemeinsame Vorteile im Gefolge haben.

La INTERNATIONAL CABLE DIRECTORY COMPANY est toujours prête à fournir à ses clients des informations de valeur pour ceux qui se servent des fils. En échange, nous demandons respectueusement à nos lecteurs que, quand ils correspondront avec des maisons de commerce, ou avec des particuliers, dont les noms seront pris au International Cable Register, ils veuillent bien nous accorder la faveur de citer le titre de cette publication. Si ce plan est généralement adopté, ce sera au bénéfice de tous ceux qui y seront intéressés.

La INTERNATIONAL CABLE DIRECTORY COMPANY está siempre dispuesta á obtener informes para sus clientes, que son útiles para los que usan los alambres. En cambio de lo cual deseamos indicar á aquellos de nuestros lectores que tienen correspondencia con casas de comercio ó con particulares cuyos nombres se han sacado del International Cable Register que consideraremos un obsequio que nombren esta publicación.

Si se adopta este plan en general, quedarán beneficiados todos los interesados.

THE WESTERN UNION TELEGRAPH CO.

THEO. N. VAIL, President

B. BROOKS, General Manager

Executive Offices 195 Broadway, New York

THE LARGEST TELEGRAPH AND CABLE SYSTEM
IN THE WORLD

MONEY TRANSFERRED BY TELEGRAPH AND CABLE
SPEEDY, SAFE AND SURE

The Western Union Telegraph Company conducts a world-wide system for the transfer of money. Payments are made on telegraphic order without delay.

By special arrangement with the British Government all Western Union cable transfers of money are paid by the British Post Office Department.

Money may be sent through the Western Union to the farthest parts of the world—in fact wherever telegraphic communication extends.

Wires to All Points of the Compass

To the East—By Atlantic cables and European connections.

To the West—By land lines covering the United States.

To the North—By exclusive Canadian connections.

To the South—By direct connections to Mexico, Central and South America.

Mark Cables "via Western Union"

THE WESTERN UNION TELEGRAPH CO.

CABLE SERVICE

OF THE

WESTERN UNION TELEGRAPH CO.

Between the United States and Europe

Atlantic Ocean Cables from New York to Penzance, England. All cables duplexed, providing prompt, efficient service with Great Britain and the Continent.

Between the United States and South America

Direct wires from principal cities to Galveston, Texas, connecting there with the cables of the Mexican Telegraph Co. and the Central and South American Telegraph Co. for all points in Mexico and Central and South America.

Between the United States and the West Indies

Direct wires and cables to Havana, Cuba, and through connections to all points in the West Indies, the Bermudas and the Bahamas.

Between the United States and the Far East

Trans-continental wires to the Pacific Coast, connecting at San Francisco and Vancouver with Pacific Ocean cables to Australia, New Zealand, the Philippine Islands, China, Japan, Guam and the Hawaiian Islands.

Between the United States and Alaska

Direct connection and through rates with the United States Government system of cables and land lines to Alaska.

THE WESTERN UNION TELEGRAPH CO.

BERNE TELEGRAPH CONVENTION

ITS ORIGIN AND PURPOSES

THE INTERNATIONAL CABLE REGISTER OF THE WORLD contains the rules and regulations as revised by the last International Telegraph Convention held at Lisbon in 1908. These rules and regulations are officially published in volume form at the permanent Headquarters of the Telegraph Convention in Berne, Switzerland, under the title "THE INTERNATIONAL TELEGRAPH CONVENTION AND SERVICE REGULATIONS." In the interests of our subscribers we publish herewith a brief synopsis of the origin and formation of this governing and regulating body, its aims, purposes and composition.

The international telegraph business of the world is governed by rules and regulations formulated by the International Congress of Nations which first convened at St. Petersburg, Russia, in 1875, amended and amplified by subsequent conventions, to meet various changes as the advance in telegraph science dictated, or as demonstrated by experience. The last revision, that of Lisbon in 1908, is the guide to the telegraph world to-day for all purposes of international telegraphic correspondence.

The telegraphs of the world, with a few notable exceptions, are under government control and administration, and, as a rule, are a branch or department of the Postal Service. These governments, by and through their representatives, go to make up the Telegraph Convention, and the BERNE BUREAU is supported by a pro rata tax levied upon the various Government Telegraph Administrations that are signatories to this Convention.

The non-adhering and non-subscribing governments and systems are chiefly those where the telegraphs are not under government control, notably the United States and Canada, where the telegraphs are in the hands of private corporations, subject to government regulations as such; the ocean cable companies are

with few exceptions maintained and administered by private capital and corporate enterprise. These non-subscribing governments and companies, though having no voice or vote in the International Telegraph Convention, must of necessity follow the general Rules and Regulations in so far as is compatible with their interests and their business of international telegraphic correspondence. Nevertheless, private telegraph enterprises working within the limits of one or more of the contracting or convention countries or companies are considered as forming an integral part of the telegraph system of those states.

For the purposes of the Convention in disseminating and collecting telegraph information a central office is located at Berne, Switzerland, and is known throughout the telegraph world as the BERNE BUREAU. It is under the direction of a chief administrator, the nominee of the Convention, whose duty it is to arrange, codify and publish from time to time all matters of telegraphic interest. It is also the duty of all telegraph administrations and cable companies, whether members of the Convention or not, to communicate to the BERNE BUREAU all changes occurring, in the general interests of the telegraph world, and for the knowledge and convenience of the public.

The OFFICIAL LIST OF TELEGRAPH OFFICES known as the "Nomenclature" is published by the BERNE BUREAU and a monthly supplement is issued, showing new offices added, and all other changes that may have occurred, that are of interest and necessary to the public.

The INTERNATIONAL CABLE REGISTER OF THE WORLD for 1912 publishes a complete list of cable rates on a per word basis, revised up to April 15, 1912, showing the rates chargeable from all parts of the United States and Canada to all other places having telegraph com

Berne Telegraph Convention

munication throughout the world, and a similar list of rates (expressed in Sterling) from the United Kingdom of Great Britain and Ireland to all other places having telegraph communication in all parts of the globe, thus affording its subscribers, whether located in the United States or Canada, or in the United Kingdom of Great Britain and Ireland, equal facilities, in the one book of reference, for ascertaining the rates per word for telegraph and cable communication to and from all parts of the world.

The OFFICIAL LIST OF TELEGRAPH OFFICES as published by the BERNE BUREAU provides that the name of the office of destination shall be amplified by the name of the state or territorial subdivision in all cases where it is necessary to distinguish it from other offices of the same name, and the name as it thus appears in the first column of the official list published in the "Nomenclature" is counted as a single word.

In the INTERNATIONAL CABLE REGISTER OF THE WORLD, the names of places where subscribers are located are given on pages 21 to 35 in accordance with the form as published in the official list. The names are also to be found on pages 101 to 580 inclusive, alphabetically arranged by continents and beginning with "America" followed with the countries, states and territories comprised within each country. The same general order is observed with the other continents of the world.

To emphasize the importance of writing the destination of a cablegram as prescribed in the official list published by the BERNE BUREAU, the following examples will suffice: If a person in India desired to cable to Bristol, Virginia, the telegraph office in India would charge the sender two words for the destina-

tion, for the reason that Bristol, Virginia, is not published in the OFFICIAL LIST OF TELEGRAPH OFFICES; but Bristol, Virginia, and Bristol, Tennessee, are practically one place only divided by the state line. The telegraph office, however, is in Bristol, State of Tennessee. Therefore, the message destined for Bristol, Virginia, should be addressed as "Bristol, Tenn." writing and counting it as one word. Should the sender omit to indicate the state, the message would be sent to Bristol, England, as that is the only Bristol that is accepted telegraphically without indicating the state, territory or province.

As a further example, when cabling to Washington, D. C., "Washington" would be sufficient as the destination, according to the official list. There are nineteen other places named "Washington" in the United States, to any one of which, in order to effect delivery, the state indication should be added, thus "Washington, Middlesex County, New Jersey," all of which would be charged for as but one word. This rule is observed and is in force throughout the world. To avoid errors and delay in making corrections, telegrams or cablegrams should be written distinctly. Typewritten copies are preferable, especially when messages are in code, or in a language foreign to the operator.

For rules and regulations governing cable messages and for cable rates to and from the United States and Canada and the United Kingdom of Great Britain and Ireland to all places throughout the world, see following pages.

According to the regulations of the BERNE BUREAU cable rates are subject to alteration and become effective after twenty-four hours notice.

CABLEGRAMS

RULES, REGULATIONS, AND TARIFFS

GOVERNING CABLE TELEGRAPHIC CORRESPONDENCE ON BUSINESS TRANSMITTING TO AND FROM THE EASTERN AND WESTERN HEMISPHERES

RULES FOR COUNTING AND CHARGING TELEGRAMS

- Conditions must Be Signed** 1. The conditions upon which telegrams are accepted should be carefully read, and must be signed by the sender or his representative.
- Telegrams without Text** 2. A single telegram may contain any number of words from two upward. The name and address of the receiver must consist of at least two words. Telegrams without text are admitted.
- Place of Origin** No charge is made for transmission of the name of the office of origin, nor for an indication of any particular route that may be given by the sender and considered necessary by the Telegraph Administration.
- Place of Destination** The official name of the telegraph office of delivery, as given in the first column of the Berne List, and completed by any indications which appear in that column, and the name of the country, together with its territorial subdivision, each counts as one word, irrespective of the number of letters employed in either case.
- Plain Language** 3. In telegrams in which the text is written entirely in plain language the maximum length of a chargeable word is fixed at fifteen letters. Should a word contain more than fifteen letters, every fifteen, or fraction of fifteen, letters is counted as a word. When the letters *ck* come together in the spelling of a word they are counted as one letter.
- Code Language** 4. Code Words must not exceed ten letters in length, and must be taken from one or more of the following languages:—English, French, German, Italian, Spanish, Dutch, Portuguese and Latin.
- Code language is composed (a) of real words not forming comprehensible phrases, and (b) of combinations of letters having the appearance of real words.
- (a) The real words (which must not exceed ten letters in length) may be drawn from any of the following languages:—English, French, German, Dutch, Italian, Spanish, Portuguese or Latin. Consequently, the words contained in the Official Vocabulary for Code Telegrams prepared by the International Telegraph Bureau at Berne will be available for the purpose, with the exception of any words exceeding ten letters in length inserted in that publication in error.
- (b) The combinations of letters (which must also be within the limit of ten letters) must be pronounceable according to the usage of one of the above-mentioned languages.
- Combinations of letters which are not pronounceable will be treated as letter cipher and counted at five letters to the word.
- Commercial marks and abbreviated expressions in current use (such as *tmrl*, *cif*, *figa*, *sags*, *rsvp*) will also be counted at five letters to the word.
- Combinations or alterations of words contrary to the usage of the language are counted in accordance with the number of words which they would contain if they were written in the usual manner.
- Proper names may only appear in telegrams written wholly or partly in code language so long as they are used with their meaning in plain language. At the same time proper names which appear in the official vocabulary may be admitted with a code meaning.
- Cipher** 5. Cipher telegrams may be composed either wholly or partly of figures, or of letters or groups of letters, or of a combination of words and figures, or of words and letters, but the mixture of figures and letters is prohibited.
6. The groups of figures are counted at the rate of five figures to a word, plus one word for any excess. The same rule applies in counting groups of letters.
- Mixed Language** 7. Words in plain language inserted in the body of a mixed telegram composed of words in plain language and words in preconcerted (code) language, are counted as a word up to ten characters, any excess being counted as a word by indivisible series of ten characters. If the mixed telegram contains in addition a part in cipher, the parts in cipher are counted according to Rule 6.
- If a telegram is composed partly of plain language and partly of cipher language, and does not contain preconcerted (code) language, the parts in plain language are counted according to Rule 3, and the parts in cipher language according to Rule 6.
8. Names of towns and countries; surnames belonging to one person; names of places, squares, boulevards, streets, and other kinds of public places; names of ships; whole numbers, fractions, decimal or fractional numbers written entirely in letters and compound words admitted as such in the English and French languages, and which can, when required, be justified by a dictionary, may be respectively grouped as one word each. They are counted according to the 10 or 15 letter limit.
- Proper Names**
- Signs of Punctuation, Etc.** 9. Words joined by a hyphen or separated by an apostrophe are counted as so many separate words.
10. The following are counted as a word:—
Each initial to a personal name.
Each separate letter.
Each separate figure.
Each supplementary instruction, such as—*R. P. 15*—
An underline.
Parentheses (the two signs which serve to form it).
Inverted commas (distinctive signs placed at the beginning and end of a single word or phrase, thus: " ").
11. Signs of punctuation, hyphens and apostrophes are not counted or transmitted.
12. Decimal points, commas, bars and dashes used in the formation of numbers, and bars of division, are each counted as a figure.
- Ordinal Numbers** 13. Letters added to figures to form ordinal numbers, as well as letters added to figures to designate the number of a house in an address,

Rules, Regulations, and Tariffs Governing Cable Telegraphic Correspondence.

are each counted as a figure, in the group in which they occur, thus:—

129th (five figures).....1 word
195A (four, ").....1 "

Examples 14. The following examples determine the interpretation of the rules to be followed in counting words and figure quotations:—

C. H. F. 45 (").....	4	4 "
The business is <u>urgent</u> leave at <u>once</u> (7 words and 2 underlines).....	9	9 "

Delivery 15. Telegrams destined for places beyond the line of telegram must contain instructions as to the name of the place from which they are to be posted. Such instructions must be inserted as a part of the address, and be paid for. An additional charge of fivepence will be made if the telegram is sent by post to a country other than that of the terminal telegraph station.

16. The sender is responsible for an incorrect or insufficient address. Corrections and alterations can only be made by a fresh telegram, which must be paid for.

Prepaid Replies 17. The reply to a telegram can be prepaid, the sender determining its length. The words "REPLY PREPAID X," or the indication "R. P. x" the number of words paid for being specified, must be inserted in hyphens immediately before the address, that is, as a part of the address and before the text or body, and must be charged for.

The indication " = R. P. x = " counts as one word.

Should the reply contain more than the number of words specified and paid for, the sender of the reply must pay the excess.

If the original message cannot be delivered, the terminal station will inform the sender of it by a notice containing the reason of non-delivery.

18. Upon arrival of a telegram to which a reply has been prepaid, the receiving office will forward to the addressee an order containing the number of words for which a reply has been paid, upon presentation of which the reply is accepted without further payment. This order is good for six weeks from date, after which the reply must be paid for as an ordinary telegram. The amount deposited by the sender for a reply will, in this case, be returned to him, upon the receiver, before the expiration of the limit of three months from date of issue, returning the order to the office which delivered it, accompanied by a request for the amount to be refunded to the sender.

Repeated Telegrams 19. The sender of a telegram at the time of filing may order it repeated, in which case the various offices *en route* repeat it to each other as it passes. The words "REPETITION PAID" or the indication "T. C." must be inserted in hyphens immediately before the address, that is, as a part of the address and before the text or body, and must be charged for. A quarter rate additional is charged for the repetition.

The indication " = T. C. = " counts as one word.

Acknowledgment Receipt 20. The sender of a telegram, at the time of filing it, may request that notice of the date and time at which it is delivered be transmitted to him by telegram. The words "ACKNOWLEDGMENT RECEIPT," or the indication "P. C." must be inserted in hyphens immediately before the address, that is, as a part of the address, and before the text or body, and must be charged for. The indication " = P. C. = " counts as one word.

If the telegram cannot be delivered, the terminal station informs the original sending station of it, by a notice containing the reason of the non-delivery.

The charge for an "acknowledgment of receipt" is equal to that of a message containing five words.

Corrections 21. Every telegram exchanged between two telegraph offices at the request of the sender or receiver, to rectify or complete a telegram already transmitted or in course of transmission, will be charged for at full rates. The addresses of these telegrams are not charged for.

22. The charges will be refunded without delay to the person who paid them if it be found that the telegraph service has been in fault.

23. No return of charges will be made upon the original telegram which has been corrected in this manner, and no claim for rectifications obtained direct between senders and receivers will be entertained.

Complaints 24. All complaints respecting irregularity in the transmission or delivery of telegrams should be made by the sender, and addressed to the administration or company to which the telegrams were handed, and, in cases of non-delivery, must be accompanied by a declaration in writing, from the receiving station, or from the addressee, to the effect that the telegram has not been received, and in cases of error or delay, the complaint should be accompanied by the addressee's copy of the message.

Every claim must be made, under penalty of rejection, within five months of the date of the telegram.

Multiple Telegrams 25. Telegrams containing multiple addresses are not admitted.

TARIFF FROM THE UNITED STATES AND CANADA TO EUROPE AND BEYOND

FROM

NEW YORK CITY, Astoria, Bay Ridge, Brooklyn, Carmansville, Flatbush, Ells Island, Fordham, Fordham Heights, Fort Hamilton, Governor's Island, Green Ridge, Greenpoint, Harlem and Harlem River, Highbridge, Hunter's Point, Kingsbridge, Long Island City, Melrose, Morrisania, Morris Heights, Mott Haven, New Brighton, New Dorp, Port Morris, Port Richmond, Quarantine, Ravenswood, Riverdale, St. George, Spuyten Duyvil, Stapleton, Tompkinsville, Tremont, W. NOTES IN REFERENCE TO CABLE RATES FOR CENTRAL AND SOUTH AMERICA.

NOTE 1. Republic of Panama, U. S. of Colombia, Ecuador, Peru, and Venezuela refuse to investigate complaints concerning the transmission or delivery of telegrams passing over their lines, or to refund the charges paid therefor, under any circumstances whatever. Messages for stations on such lines can, therefore, be accepted only at sender's risk. The foregoing notice does not apply to telegrams destined for Colon and Panama, in Republic of Panama, Buenaventura, in the U. S. of Colombia; Guayaquil and St. Elena, in Ecuador; Callao, Lima, Mollendo and Payta, in Peru; or Caracas, Coro, La Guayra and Puerto Cabello, in Venezuela.

NOTE 2. Messages *via* "New York-Colon" to Brazil are forwarded by land lines beyond Buenos Ayres; if desired, they will be forwarded by *Cables* beyond that place at rate of 94 cents per word more than rate to Buenos Ayres.

NOTE 3. Messages to be mailed to places beyond the telegraph lines in Ecuador will hereafter be routed *via* Guayaquil, and mailed therefrom. Messages whose addresses show other mailing routes should be refused.

* Messages for Honolulu and for all other places in the island of Oahu are delivered without extra charge.

Messages for the islands of Hawaii, Maui and Kauai may be forwarded beyond Honolulu by mail or by wireless telegraph. The charge for the wireless transmission is one dollar and fifty cents for ten words or less, and fifteen cents for each word over ten (address and signature to be counted and charged for), in the case of wireless telegraph. There is no charge for mailing. "Via Wireless" must be signalled in the checks of messages to be forwarded by wireless telegraph. The name of the island must appear in address of every message going beyond Honolulu.

The rates here quoted apply to half rate traffic originating at offices where the full rate is 25 cents per word to London.

To all offices where the full rate is 28 cents per word to London add one and one-half cent (1½¢) per word.

To all offices where the full rate is 31 cents per word to London add three cents per word.

To all offices where the full rate is 34 cents per word to London add four and one-half cents per word.

To all offices where the full rate is 37 cents per word to London add six cents per word.

Conditions.

(1) All deferred half-rate messages must be written either in French language, the language of the country of origin, or in the language of the country of destination. The sender must write before the address and pay the charge of one word for the indications "LCF," "LCO," "LCD" according to the declaration of the sender as to whether the language is in French, country of origin or country of destination. This is a European Government stipulation.

(2) The message must contain an address and a text. Signature is optional but the Western Union Company cannot make unpaid inquiries in respect of unsigned messages.

(3) Messages with registered Cable address may be accepted. House or street numbers may be expressed in figures.

(4) The text must be written entirely in the plain language of the country from which the message is sent, or plain language of the country to which it is addressed or entirely in plain French language. English language is declared as the language for Country of origin of Egypt and the Soudan, and for all British Dominions, Malay language also included as of origin in the Malay States and Straits Settlements and Dutch language for the South African Union. Other languages or mixtures of other languages are not admitted. Figures, commercial marks, cipher groups, abbreviations or mutilations are not allowed; numbers used in the text must be written in words, but not more than 15 letters will be accepted as single words.

Prepaid replies may be accepted but it must be clearly understood that they must be charged for at full rate from origin to destination.

* Deferred half rate messages may also be accepted to Australia and New Zealand via Bamfield, Vancouver Island and British Pacific Cable at half the full rates given in table, page 10.*

TELEGRAMS

Rules for counting and charging Domestic Telegrams exchanged between one point and another within the United States of America and Canada, and for International Telegrams exchanged between Mexico and the aforementioned countries, adopted by the Telegraph Companies of North America and by the Mexican Government for the Mexican Telegraph Lines in effect December 1, 1909.

PROPER FORMS TO BE USED.

RULE 1.—Telegrams submitted for transmission must be written upon the “form” or “blank” prescribed by the Telegraph administration for that purpose or must be attached to that form in such a manner so as to leave the printed caption in full view above the message when written.

WORDS TO BE COUNTED AND CHARGED FOR.

RULE 2.—The Telegraph Administrations of the United States, Canada, and Mexico require, that Messages should be written in words taken from the Official Vocabulary or in words taken from any one of the following languages: English, French, German, Dutch, Italian, Portuguese, Spanish and Latin. Each and every such word will be counted and charged for as One word.

Initial letters, surnames of persons, names of cities, towns, villages, states, territories, and the names of the Canadian provinces will each be counted and charged for as One word.

Abbreviations of the names of cities, towns, villages, states, territories and provinces will be counted and charged for the same as when written in full. In the names of Countries or Counties, all the words used to express them are counted and charged for, each as One word. Abbreviations of weights and measures, figures, decimal points, bars of division (see examples which follow), will also each separately be counted and charged for as One word.

GROUPS OF LETTERS AND FIGURES.

Each letter and each figure will be counted and charged for as One word.

In ordinal numbers, the affixes *St*, *d*, *nd*, *rd*, and *th*, will each be counted as One word.

Groups of letters, when such groups do not form Dictionary words, will be counted at the rate of five letters, or fraction of five letters to a word. When such groups are formed by combining Dictionary words, each Dictionary word will be counted and charged for as One word.

The following examples illustrate the application of this rule:

St. Louis.	(City).	1	word
East St. Louis.	(" " "	1	"
Red Bud.	(Town).	1	"
South Orange.	(Village).	1	"
New York (or N. Y.)	(State).	1	"
New Mexico (or N. M.).	(Territory)	1	"
Nova Scotia (or N. S.).	(Canadian Province).	1	"
District of Columbia (or D. C.)	.	1	"
Lbs.	(Abbreviation of weight)	1	"
Hds.	(" " measure).	1	"
10000000.	(Figures).	1	words
Ten millions	(Amount expressed in dictionary words).	2	"
4442	(Figures).	4	"
44.42	(Figures and decimal point).	5	"
74½	(Figures and bar of division).	5	"
A 1.	(Letters and figures).	2	"
42B618.	(" " " ").	6	"
Ist.	(Ordinal number and affix).	2	"
10th.	(" " " ").	3	"
No. 185 West 22d St.	.	9	"
Ababa.	(Artificial group of 5 letters)	1	word
Hggga.	(" " " " 5 ")	1	"
Egadol.	(" " " " 6 ")	2	words
Cutnerodal.	(" " " " 6 ")	2	"

C. I. F. or C. F. I. (or cif or cfi)	1 "
C. A. F. (or caf)	1 "
O. K.	1 "
Per Cent (or percent)	1 "

Registered Cable Code Addresses are not accepted as sufficient address in Domestic telegrams. The Telegraph Administrations of North America invite full and ample Addresses in order to facilitate prompt delivery. Registered Cable Code Addresses, therefore, must not be used.

The Official Vocabulary is a voluminous compilation of words arranged alphabetically, and taken from the eight languages authorized for use in telegraph correspondence, and published by the International Telegraph Bureau, at Berne, Switzerland, for general use in the compilation of Telegraph Codes.

The Western Union Telegraphic Code (Universal Edition) is made up exclusively of words taken from the Official Vocabulary, and as a consequence conforms strictly to the Rules laid down not only by the Telegraph Administrations of the United States and Canada, but is in accord with the rules and regulations prescribed by the International Telegraph Convention of Lisbon, of 1908, to which all Government Telegraphs and Telegraph Administrations throughout the world conform and adhere to.

* Telegrams are transmitted by telegraph to Payo Obispo, in Mexico, from whence they are sent by boat across the Rio Hondo, and then telephoned to Belize. The words "via Payo Obispo" must be inserted in the address and paid for. These telegrams are accepted entirely at sender's risk, and complaints concerning them cannot be investigated.

Telegrams for COSTA RICA, REPUBLIC OF HONDURAS and NICARAGUA (except San Juan del Sur), are only accepted at sender's risk. N.B.—In telegrams ordered "via Jamaica-Panama," except those for the Isthmus of Panama, the indication, "via Panama," the date and the name of the office of origin must be inserted and paid for.

BRADSTREET'S

FOUNDED IN 1849

Offices and Connections Throughout the Commercial World

BRIEFLY stated, the business of The Bradstreet Company consists in gathering and supplying to its clients information which reflects the financial condition and the controlling circumstances that surround seekers of credit in every land, thus promoting safety in the transaction of commercial business. In procuring and verifying its information every source of any value is carefully consulted for the purpose of justifying its claim as an impartial and dependable authority concerning the factors which have a bearing on commercial affairs and mercantile credit.

The Company's offices and connections have been steadily extended in every direction since the beginning of the Institution's existence, more than sixty years ago. As a result of the wide ramifications of its service now established, merchants in any city on the globe may, with confidence, enter into business relations with merchants in any other city, however remote, when they have as a guide the knowledge which it is possible to get through the medium of this great organization.

Subscriptions are based on the service furnished and are available only to reputable wholesale, jobbing and manufacturing concerns, as well as responsible financial, fiduciary and other business corporations. Specific terms may be obtained by addressing the Company at any of its offices.

BRADSTREET'S, a Journal of Trade, Finance and Public Economy, is issued weekly, and its Trade Reports are of great value and interest to business and professional men. Terms upon application.
